Dear Parents and Carers,

Re: Year 11 PPE1 (Mock Examinations) & Revision Support Plan

As we move further into this pivotal academic year, our Year 11 students are approaching an important milestone in their educational journey: their first set of Year 11 Pre-Public Examinations (PPE1 / Mock Exams), taking place from **3rd to 11th November 2026**.

To support your child in preparing effectively, we have put together a **four-week structured revision plan**. This plan is designed to guide their independent study, establish good revision habits, and ensure they feel confident and prepared.

Key Details of the Revision Support in every subject:

- **Structured & Monitored:** Revision tasks will be set and monitored weekly via **ClassCharts** and **Google Classroom**.
- **Targeted Learning:** Tasks are carefully tailored by subject teachers to help students review core content and practice exam techniques.

Why Starting Early Matters: Building momentum now is essential. Establishing a regular revision routine early reduces stress, aids long-term memory retention, and helps students avoid last-minute cramming. PPE1 is not just an assessment; it is a critical step in the final Year 11 journey. It provides students and teachers with a clear picture of current strengths and identifies specific areas that need further attention. These mocks offer a realistic gauge of how far students have come—and precise guidance on what needs to be done in the remaining months.

We encourage you to talk with your child about their revision timetable and help them create a quiet, focused space for study at home.

Thank you for your continued partnership and support in helping your child achieve their full potential.

Yours sincerely,

Clare Johnson

Assistant Headteacher
